We are Magenta

Magenta Telekom is a leading provider of internet, mobile communications, entertainment and business solutions in Austria. The company counts around 2,200 employees and is part of the Deutsche Telekom Group.

Your Team

The Mobile Services & ISP Team is responsible form end-to-end perspective for the Magenta Service Delivery Platform (SDP), including its system and software architecture. We drive the implementation of new services while continuously modernizing and managing the lifecycle of both the SDP and AT-Alert platform.

Shape complex IT/NT landscapes. Drive technical innovation. Take ownership of critical platforms.

Are you passionate about designing complex IT/NT systems and driving technical solutions from concept to implementation?

As a System Architect, you combine strong technical expertise with the ability to lead and coordinate complex technical initiatives. You take end-to-end technical ownership of our Magenta Service Delivery Platform, drive architectural decisions and work closely with suppliers and various internal teams to deliver reliable, scalable and future-ready solutions.

You will play a key role in the continuous evolution of our platforms, translating business requirements into technical concepts and ensuring their successful implementation.

- Lead technical projects and take end-to-end technical responsibility for the Magenta Service Delivery Platform, coordinating technical teams and driving implementation.
- Design system architectures and define technical requirements, translating business needs into scalable and sustainable technical solutions.
- Drive technical decisions and coordinate stakeholders across development,

infrastructure and operations to ensure successful project delivery.
- Ensure high availability, performance and reliability of systems, including software quality, security compliance and capacity planning.
- Drive the continuous evolution and modernization of the AT-Alert platform – at both system and application levels.
- Maintain stable operations and support platform reliability, including participation in an on-call rotation approximately once every eight weeks for one week, after completion of the onboarding period.

- Do you have experience in designing and architecting complex enterprise system landscapes?
- Do you have experience in leading technical IT/NT projects, coordinating technical teams and driving implementation?
- Do you have expertise with container technologies (Kubernetes) and cloud infrastructures, including CI/CD pipelines?
- Do you have a solid background in Unix/Linux administration, networking and database systems?
- Are you an excellent communicator with a structured, holistic and business-oriented approach to work?

At Magenta, we believe in diverse employees and live equal opportunities. We welcome all applications regardless of cultural and social background, age, gender, nationality, religion, disability or sexual orientation. Magenta connects all people.
