AI Platform Developer (f/m/d) - Maternity Leave Cover (14 months)

Vienna | asap | Fulltime | Fixed-term (14 months, maternity leave cover)

We are Magenta

Magenta Telekom is a leading provider of internet, mobile communications, entertainment and business solutions in Austria. The company counts around 2,200 employees and is part of the Deutsche Telekom Group.

Your Team

Join our Data & AI Tribe at Magenta and help shape a truly AI-driven culture. We are looking for an AI Platform Developer to help build new features for our internal enterprise AI platform. The platform provides conversational AI, coding assistance, document processing, enterprise search, image generation and custom AI assistants to users across the company. By delivering new capabilities, you will have a direct impact on a company-wide product used by a broad internal audience. You will work closely with cloud, security, product and business teams, as well as collaborate with developers from other countries.

- Take ownership of developing and maintaining scalable backend services and APIs using Python and FastAPI while contributing to modern frontend features with React, Next.js, and TypeScript
- Drive the implementation of new features for our enterprise AI platform, integrating state-of-the-art AI models such as Gemini, Claude, OpenAI models, and similar technologies
- Design and implement AI workflows, custom tools, MCP integrations, retrieval-augmented solutions, and guardrails to ensure reliable and secure generative AI applications
- Collaborate closely with local and international development, platform, security, and business teams to deliver innovative AI solutions

- Do you have several years of professional experience in software development with a strong focus on Python, FastAPI (or a similar framework), and building production-ready backend services and REST APIs?
- Are you experienced in writing clean, typed, well-tested, and maintainable code, using modern development practices and tools such as Git, CI/CD, automated testing, containerization, dependency management, and code-quality tooling?
- Do you have experience with Generative AI technologies, such as integrating LLMs, building AI workflows, RAG solutions, MCP integrations, or implementing AI guardrails?
- Are you comfortable working independently, communicating effectively in English, and collaborating with international, cross-functional teams?

At Magenta, we believe in diverse employees and live equal opportunities. We welcome all applications regardless of cultural and social background, age, gender, nationality, religion, disability or sexual orientation. Magenta connects all people.

„Kunde ist König“
ist unser
Versprechen.

Wir wollen
gemeinsam
gewinnen.

Du kannst
dich auf mich
verlassen.

Wir dürfen das
und machen's
einfach.

Kein Bullshit Bingo -
wir sagen was
Sache ist.

Wir nehmen's
mit
Humor.
