TV & Streaming Platform Engineer (f/m/d)

Vienna | asap | fulltime | unlimited

We are Magenta

Magenta Telekom is a leading provider of internet, mobile communications, entertainment and business solutions in Austria. The company counts around 2,200 employees and is part of the Deutsche Telekom Group.

Shape the Future of MagentaTV with Us!

Millions of TV streams, live events, on-demand content, and a platform that must be available 24/7 – that's our daily business.

As part of the MagentaTV Engineering Team, we are responsible for the entire technical platform end-to-end: from content acquisition and signal processing to content distribution and client delivery. Together, we ensure that our customers enjoy a first-class entertainment experience anytime, anywhere.

To achieve this, we are looking for people who love technical challenges, take ownership, and want to actively shape the future of MagentaTV.

- Own and continuously evolve our TV and streaming platform, ensuring reliability, scalability, and outstanding performance
- Improve products, systems, and processes while driving the adoption and integration of innovative technologies
- Partner with Product and Content teams to turn business requirements into robust technical solutions
- Lead technical collaboration with broadcasters, studios, content providers, and technology partners across the platform ecosystem
- Solve complex technical challenges, champion innovation, and actively shape the future of the platform through new ideas and initiatives

- Do you have a degree in Media Engineering, Telecommunications, Network Engineering, or a related field, or several years of hands-on experience working with TV, IPTV, or streaming platforms?
- Are you experienced with DVB-C, IPTV, OTT, and modern streaming technologies, including protocols (e.g. HLS, MPEG-DASH, MPEG-TS, RTP, RTSP, and Multicast)?
- Do you have practical knowledge of video delivery workflows and platform components such as encoding, transcoding, multiplexing, packaging, CDN, nPVR, Catch-up TV, and DRM solutions?
- Are you comfortable working in Linux-based environments and do you bring solid networking expertise, ideally including Cisco technologies and multicast architectures?
- Do you combine a structured, solution-oriented mindset with the ability to navigate complex technical environments, while staying up to date with trends and innovations in TV, media, and streaming technologies?
- Are you experienced working in agile teams using tools such as Jira and Confluence, possess excellent English communication skills, and are willing to participate in an on-call rotation?

At Magenta, we believe in diverse employees and live equal opportunities. We welcome all applications regardless of cultural and social background, age, gender, nationality, religion, disability or sexual orientation. Magenta connects all people.

„Kunde ist König“
ist unser
Versprechen.

Wir wollen
gemeinsam
gewinnen.

Du kannst
dich auf mich
verlassen.

Wir dürfen das
und machen's
einfach.

Kein Bullshit Bingo -
wir sagen was
Sache ist.

Wir nehmen's
mit
Humor.

I ♥ Magenta

That sounds good to you?
