

## Solution Architect (f/m/d) - B2C Digital Solutions

Vienna | asap | full-time | unlimited

### We are Magenta

Magenta Telekom is a leading provider of internet, mobile communications, entertainment and business solutions in Austria. The company counts around 2,200 employees and is part of the Deutsche Telekom Group.

### Your Team

At Magenta, we're committed to delivering top-tier service and seamless experiences to our customers. To support this, we're looking for a skilled and hands-on Solutions Architect to help optimize and evolve our IT infrastructure.

In this role you'll identify technical challenges and design practical, scalable solutions. Your expertise will drive architecture decisions and contribute directly to successful cloud implementations and software development efforts.

You will work on strategic, business-critical solutions while still being close to the code. With a lot of freedom to innovate you can bring your ideas, prototype new approaches, and influence our technical direction.

- **Design and evolve architectures:** Shape scalable, secure and high-performing technical architectures that align with business goals and modern engineering practices
- **Collaborate deeply:** Work closely with product owners, engineers, and stakeholders to understand challenges, refine requirements, and design pragmatic solutions
- **Prototype & propose:** Explore, prototype and propose end-to-end solutions that solve real business problems, ensuring long-term scalability and sustainability.
- **Hands-on contribution:** Actively develop, review and maintain high-quality code for critical projects, while guiding teams toward best practices
- **Knowledge sharing:** Mentor team members, create technical documentation, and drive alignment on architectural decisions
- **Agile & DevOps mindset:** Champion agile ways of working and modern DevOps practices to improve delivery speed, quality, and collaboration

- **Innovate continuously:** Stay curious, evaluate new technologies, and experiment with tools that could push our technology stack forward
- Do you have 7+ years of experience in software engineering and/or software architecture? You may already be an architect, or you're a senior engineer ready to step up. This is your chance to transist from senior engineer to architect, with mentoring and support.
- You have proven experience in designing and implementing cloud-native applications (preferably on AWS)?
- Do you have strong experience in agile delivery model and collaborative ways of working?
- You have strong communication skills and are willing to be a change agent in the organisation, creating impact and driving the way forward?

At Magenta, we believe in diverse employees and live equal opportunities. We welcome all applications regardless of cultural and social background, age, gender, nationality, religion, disability or sexual orientation. Magenta connects all people.

„Kunde ist König“  
ist unser  
Versprechen.

Wir wollen  
gemeinsam  
gewinnen.

Du kannst  
dich auf mich  
verlassen.

Wir dürfen das  
und machen's  
einfach.

Kein Bullshit Bingo -  
wir sagen was  
Sache ist.

Wir nehmen's  
mit  
Humor.
