Your Team

Join our Data team and help shape the responsible use of AI across our organization. If you're passionate about the future of artificial intelligence and want to explore how it intersects with ethics, regulation, and technology — this is the opportunity for you.

- Conduct literature reviews and summarize key developments in AI ethics, policy, and regulation (e.g. EU AI Act).
 - Help track, document, and support the implementation of emerging AI standards and legal frameworks.
 - Assist in the planning and execution of internal workshops, webinars, and awareness campaigns around AI and LLMs use.
 - Work closely with data, legal, security, and product teams to promote responsible AI practices.
 - Help build and maintain an internal AI governance community — sharing updates and encouraging best practices.
-
- Are you currently pursuing your studies and eager to deepen your knowledge in AI governance, data protection, machine learning basics, or information security?
 - Can you work independently, synthesize complex topics, and communicate them clearly to both technical and non-technical audiences, while feeling confident using Excel, PowerPoint, and Jira?
 - Are you fluent in English and German and comfortable engaging with diverse stakeholders across different functions?

At Magenta, we believe in diverse employees and live equal opportunities. We welcome all applications regardless of cultural and social background, age, gender, nationality, religion, disability or sexual orientation. Magenta connects all people.
